SUMMARY

**Baldwin County Commission
October 1, 2018 through September 30, 2019**

The Baldwin County Commission (the “Commission”) is governed by a four-member body elected by the citizens of Baldwin County. The members and administrative personnel in charge of governance of the Commission are listed on Exhibit 22. The Commission is the governmental agency that provides general administration, public safety, construction and maintenance of county roads and bridges, sanitation services, health and welfare services and educational services to the citizens of Baldwin County.

This report presents the results of an audit the objectives of which were to determine whether the financial statements present fairly the financial position and results of financial operations and whether the Commission complied with applicable laws and regulations, including those applicable to its major federal financial assistance program. The audit was conducted in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States as well as the requirements of the Department of Examiners of Public Accounts under the authority of the *Code of Alabama 1975*, Section 41-5A-12.

An unmodified opinion was issued on the financial statements, which means that the Commission’s financial statements present fairly, in all material respects, its financial position and the results of its operations for the fiscal year ended September 30, 2019.

Tests performed during the audit did not disclose any significant instances of noncompliance with applicable state and local laws and regulations.

Commission members and administrative personnel, as reflected on Exhibit 22, were invited to discuss the results of this report at an exit conference held via telephone. Individuals in attendance were: former Administrator of the County Commission: Ronald J. Cink; Interim Clerk/Treasurer, Donna Bryars; and County Commissioners: Billie Jo Underwood and Charles F. Gruber. Also in attendance was a representative from the Department of Examiners of Public Accounts: Misty Medders, Examiner.

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Baldwin County Commission, as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the Baldwin County Commission's basic financial statements as listed in the table of contents as Exhibits 1 through 11.

Management's Responsibility for the Financial Statements

The management of the Baldwin County Commission is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in **Government Auditing Standards**, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Baldwin County Commission, as of September 30, 2019, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (MD&A), the Schedules of Changes in the Net Pension Liability, the Schedules of the Employer's Contributions – Pension, Schedule of the Employer's Proportionate Share of the Net Pension Liability, the Schedule of Changes in the Employer's Net Other Postemployment Benefits (OPEB) Liability, Schedule of Employer's Contributions – Other Postemployment Benefits (OPEB) and the Schedules of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual, (Exhibits 12 through 20), be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurances on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis (MD&A) that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

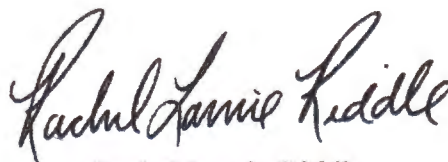

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Baldwin County Commission's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards (Exhibit 21), as required by Title 2 U. S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, is presented for the purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 9, 2020, on our consideration of the Baldwin County Commission's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing on internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Baldwin County Commission's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Baldwin County Commission's internal control over financial reporting and compliance.

***Reconciliation of the Balance Sheet of Governmental Funds to the
Statement of Net Position
September 30, 2019***

Total Fund Balances - Governmental Funds (Exhibit 3) \$ 84,131,112.98

Amounts reported for governmental activities in the Statement of Net Position
(Exhibit 1) are different because:

Capital assets used in governmental activities are not financial resources and, therefore,
are not reported as assets in governmental funds. These assets consist of:

| | | |
|--------------------------------------|-------------------------|----------------|
| Land | \$ 57,151,754.26 | |

| Less: Accumulated Depreciation | <u>(162,991,048.23)</u> | |
| Total Capital Assets | | 452,556,744.02 |

Losses on refunding of debt are reported as deferred outflows of resources and
are not available to pay for current period expenditures and, therefore, are
deferred on the Statement of Net Position. 4,903,744.96

Deferred outflows and inflows of resources related to pensions are applicable
to future periods and, therefore, are not reported in the governmental funds.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended September 30, 2019

Net Change in Fund Balances - Total Governmental Funds (Exhibit 5) \$ 18,959,549.87

Amounts reported for governmental activities in the Statement of Activities (Exhibit 2) are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation (\$13,878,361.67) exceeded capital outlays (\$11,392,070.80) in the current period. (2,486,290.87)

In the Statement of Activities, donation of capital assets is recorded as revenue, whereas in the governmental funds it is not recorded. 2,027,092.17

In the Statement of Activities, only the gain or loss on the sale/disposal of capital assets is reported, whereas in the governmental funds, the proceeds from the sale/disposal are reported. Thus the changes in net position differs from the change in fund balance by the costs of the assets sold. (67,801.40)

Repayment of debt principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Position and does not affect the Statement of Activities. 6,086,298.15

Some expenses reported in the Statement of Activities that do not require the use of the current financial resources are not reported as expenditures in the funds.

Note 1 – Summary of Significant Accounting Policies

The financial statements of the Baldwin County Commission (the “Commission”), have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government’s accounting policies are described below.

A. Reporting Entity

The Baldwin County Commission is a general purpose local government governed by separately elected commissioners. Generally accepted accounting principles (GAAP) require that the financial statements present the Commission (the primary government) and its component units. Component units are legally separate entities for which a primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

Based on the application of the above criteria, the Baldwin County Planning and Zoning Commission is a component unit that has been included in the accompanying financial statements as a blended component unit. Blended component units are legally separate entities that exist solely to provide services (usually financing) exclusively to the County.

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the Commission. These statements include the financial activities of the primary government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the Commission. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

Notes to the Financial Statements

For the Year Ended September 30, 2019

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the Commission and for each function of the Commission's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The Commission does not allocate indirect expenses to the various functions. Program revenues include (a) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or program and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The fund financial statements provide information about the Commission's funds, including fiduciary funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds in the Other Governmental Funds' column.

The Commission reports the following major governmental funds:

- ◆ **General Fund** – The General Fund is the primary operating fund of the Commission. It is used to account for all financial resources except those required to be accounted for in another fund. The Commission primarily received revenues from collections of property taxes and revenues collected by the State of Alabama and shared with the Commission. The fund is also used to report the expenditures for building and maintaining public buildings, roads and bridges. As of fiscal year September 30, 2019, the Commission now accounts for health self-insurance in this fund.

- ◆ **Gasoline Tax Fund** – This fund is used to account for the expenditures of gasoline taxes for the activities of the public works/highway department as related to maintenance, development, and resurfacing of roads, bridges, and rights-of-way.

Notes to the Financial Statements

For the Year Ended September 30, 2019

The Commission reports the following governmental fund types in the Other Governmental Funds' column:

Governmental Fund Types

- ◆ **Special Revenue Funds** – These funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or some capital projects.
- ◆ **Capital Projects Funds** – These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlay, including the acquisition or construction of capital facilities and other capital assets.
- ◆ **Debt Service Funds** – These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest and for the accumulation of resources for principal and interest payments maturing in future years.

The Commission reports the following major enterprise funds:

- ◆ **Solid Waste Fund** – This fund is used to account for the cost of providing solid waste service for commercial accounts and maintaining the county landfills.
- ◆ **Solid Waste Collection Fund** – This fund is used to account for the cost of providing solid waste service (primarily garbage collection) to county residents.

The Commission reports the following fiduciary fund types:

Fiduciary Fund Types

- ◆ **Private-Purpose Trust Funds** – These funds are used to report all trust agreements under which principal and income benefit individuals, private organizations, or other governments.
- ◆ **Agency Funds** – These funds are used to report assets held by the Commission in a purely custodial capacity. The Commission collects these assets and transfers them to the proper individual, private organizations, or other government.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the Commission gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to the general rule are charges between the government's solid waste function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Commission considers revenues to be available if they are collected within sixty (60) days of the end of the current fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, compensated absences, and landfill closure and postclosure care costs, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. General long-term debt issued and acquisitions under capital leases are reported as other financing sources.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Commission's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Under the terms of grant agreements, the Commission funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the Commission's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balances

1. Deposits and Investments

Cash and cash equivalents include cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. For purposes of the statement of cash flows, the proprietary fund type considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

State statutes authorize the County Commission to invest in obligations of the U. S. Treasury and securities of federal agencies and certificates of deposit.

Investments are reported at fair value, based on quoted market prices, except for the money market investments and repurchase agreements, which are reported at amortized cost, and certificates of deposit, which are reported at cost. The Commission reports all money market investments – U. S. Treasury bills and bankers’ acceptances having a remaining maturity at time of purchase of one year or less – at amortized cost.

2. Receivables

Sales tax receivables consist of taxes that have been paid by consumers in September. This tax is normally remitted to the Commission within the next 60 days.

Millage rates for property taxes are levied by the County Commission. Property is assessed for taxation as of October 1 of the preceding year based on the millage rates established by the County Commission. Property taxes are due and payable the following October 1 and are delinquent after December 31. Amounts receivable, net of estimated refunds and estimated uncollectible amounts, are recorded for the property taxes levied in the current year. However, since the amounts are not available to fund current year operations, the revenue is deferred and recognized in the subsequent fiscal year when the taxes are both due and collectible and available to fund operations. Property Tax revenue deferred is reported as a deferred inflow of resources.

Receivables due from other governments include amounts due from grantors for grants issued for specific programs and capital projects.

Receivables in enterprise funds consist primarily of amounts due from customers who are charged fees for services provided by the Commission. These amounts are reported net of an allowance for doubtful accounts. The allowance for doubtful accounts is based on past collection experience.

Receivables from external parties are amounts that are being held in a trustee or agency capacity by the fiduciary funds.

Notes to the Financial Statements
For the Year Ended September 30, 2019

3. Inventories

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

4. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

5. Restricted Assets

Certain general obligation warrants, as well as certain resources set aside for their repayment, are classified as restricted assets on the Statement of Net Position because they are maintained in separate bank accounts and their use is limited by applicable debt covenants. The Oil and Gas Severance Tax Trust Fund's cash is restricted by local law.

6. Capital Assets

Capital assets which include property, equipment, and infrastructure assets (e.g., roads, bridges, water and sewer systems, and similar items) are reported in the applicable governmental and business-type activities columns in the government-wide financial statements. Such assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated fixed assets are valued at their acquisition value on the date of acquisition. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred, for repairs and maintenance, are expensed as incurred. Major outlays of capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Notes to the Financial Statements
For the Year Ended September 30, 2019

Depreciation on all assets is provided on the straight-line basis over the assets estimated useful life. Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts) and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

| | Capitalization Threshold | Estimated Useful Life |
|-------------------------|-----------------------------|--------------------------|
| Buildings | \$5,000 | 10 – 30 Years |
| Improvements | \$5,000 | 30 Years |
| Equipment and Furniture | \$5,000 | 5 – 7 Years |
| Roads | \$5,000 | 20 Years |
| Bridges | \$5,000 | 40 Years |

The majority of governmental activities infrastructure assets are roads and bridges. The Association of County Engineers has determined that due to the climate and materials used in road construction, the base of the roads in the county will not deteriorate and therefore should not be depreciated. The remaining part of the roads, the surface, will deteriorate and will be depreciated. The entire costs of bridges in the county will be depreciated.

7. Deferred Outflows of Resources

Deferred outflows of resources are reported in the government-wide and proprietary funds Statement of Net Position. Deferred outflows of resources are defined as a consumption of net position by the government that is applicable to a future reporting period. Deferred outflows of resources increase net position, similar to assets.

8. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Warrant premiums and discounts are deferred and amortized over the life of the warrant. Warrants payable are reported at gross with the applicable warrant premium or discount reported separately. Warrant issuance costs are reported as an expense in the period incurred.

Notes to the Financial Statements

For the Year Ended September 30, 2019

In the fund financial statements, governmental fund types recognize premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. Compensated Absences

The Commission has a standard leave policy for its full-time employees as to sick and annual leave.

Annual Leave

Annual vacation leave accrues to all current, classified and probationary employees *hired before January 1, 2013* with five years or less service at the rate of 1 day per calendar month, for employees with 6-10 years' service at the rate of 1 and $\frac{1}{4}$ days per month, for employees with 11-15 years' service at the rate of 1 and $\frac{3}{4}$ days per month, and for employees with more than 15 years of service at the rate of 2 days per month. Classified, appointed and probationary employees *hired on or after January 1, 2013* with five years or less service accrues at the rate of 1 day per calendar month, for employees with 6-10 years' service at the rate of 1 and $\frac{1}{4}$ days per month, for employees with 11-15 years' service at the rate of 1 and $\frac{1}{2}$ days per month, and for employees with more than 15 years of service at the rate of 1 and $\frac{3}{4}$ days per month.

Unused annual-vacation leave in excess of two times the amount earned by employee classification at the end of any calendar year is forfeited. Upon separation from county service, the employee may be paid for all unused accrued annual leave.

Sick Leave

Sick leave accrues to regular, full-time employees at the rate of one day per calendar month worked. Upon retirement, an employee shall be paid $\frac{1}{2}$ of their accumulated sick leave not to exceed 360 hours.

The Commission uses the vesting method to accrue its sick leave liability. Under this method an accrual for the sick leave liability is based on the sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination payments as well as other employees who are expected to become eligible in the future to receive such payments.

Notes to the Financial Statements

For the Year Ended September 30, 2019

10. Deferred Inflows of Resources

Deferred inflows of resources are reported in the government-wide and fund financial statements. Deferred inflows of resources are defined as an acquisition of net position/fund balances by the government that is applicable to a future reporting period. Deferred inflows of resources decrease net position/fund balances, similar to liabilities.

11. Net Position/Fund Balances

Net position is reported on the government-wide and proprietary fund financial statements and is required to be classified for accounting and reporting purposes into the following net position categories:

- ◆ **Net Investment in Capital Assets** – Capital assets net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources attributable to acquisition, construction and improvement of those assets should also be included in this component. Any significant unspent related debt proceeds, or deferred inflows of resources attributable to the unspent amount at year-end related to capital assets are not included in this calculation. Debt proceeds or deferred inflows of resources at the end of the reporting period should be included in the same net position amount (restricted, unrestricted) as the unspent amount.
- ◆ **Restricted** – Constraints imposed on net position by external creditors, grantors, contributors, laws or regulations of other governments, or law through constitutional provision or enabling legislation.
- ◆ **Unrestricted** – The net amount of assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position. Net position is not subject to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by action of the Commission.

Notes to the Financial Statements

For the Year Ended September 30, 2019

Fund balance is reported in the fund financial statements. Under GASB Statement Number 54, fund balance is composed of the following:

- ◆ **Nonspendable** fund balances include amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Examples of nonspendable fund balance reserves for which fund balance shall not be available for financing general operating expenditures include inventories, prepaid items and long-term receivables.
- ◆ **Restricted** fund balances consist of amounts that are subject to externally enforceable legal restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments; or through constitutional provisions or enabling legislation.
- ◆ **Committed** fund balances consist of amounts that are subject to a specific purpose imposed by formal action of the Commission, which is the highest level of decision-making authority, before the end of the fiscal year and that require the same level of formal action to remove or modify the constraint.
- ◆ **Assigned** fund balances consist of amounts that are intended to be used by the Commission for specific purposes. The Commission authorized the Commission Chairman or County Administrator to make a determination of the assigned amounts of fund balance. Such assignments may not exceed the available (spendable, unrestricted, uncommitted) fund balance in any particular fund. Assigned fund balances require the same level of authority to remove the constraint.
- ◆ **Unassigned** fund balances include all spendable amounts not contained in the other classifications. This portion of the total fund balance in the General Fund is available to finance operating expenditures.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

Notes to the Financial Statements
For the Year Ended September 30, 2019

E. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, the Employees' Retirement System of Alabama (the "Plan") financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. Contributions are recognized as revenues when earned, pursuant to the Plan requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Expenses are recognized when the corresponding liability is incurred, regardless of when the payment is made. Investments are reported at fair value. Financial statements are prepared in accordance with requirements of the Governmental Accounting Standards Board (GASB). Under these requirements, the Plan is considered a component unit of the State of Alabama and is included in the State's Comprehensive Annual Financial Report.

F. Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Commission's Retiree Benefits Plan (the "Plan") and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms.

Note 2 – Stewardship, Compliance, and Accountability

A. Budgets

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds except the capital projects funds, which adopt project-length budgets and the permanent fund, which is not budgeted. All annual appropriations lapse at fiscal year-end.

The present statutory basis for county budgeting operations is the County Financial Control Act of 1935, as amended by Act Number 2007-488, Acts of Alabama. According to the terms of the law, at some meeting in September of each year, but in any event not later than October 1, the Commission must estimate the anticipated revenues, estimated expenditures and appropriations for the respective amounts that are to be used for each of such purposes. The appropriations must not exceed the total revenues available for appropriation plus any balances on hand. Expenditures may not legally exceed appropriations.

Budgets may be adjusted during the fiscal year when approved by the County Commission. Any changes must be within the revenues and reserves estimated to be available.

Notes to the Financial Statements
For the Year Ended September 30, 2019

B. Stabilization Arrangements

The Commission has established policy number 8.7 for emergency reserves. During the annual budget process, the Commission will compute the amount needed to meet the targeted reserves. Funds from the Trust Reserve Accounts can only be expended for a bona fide emergency and must be approved by the Commission during a regular or special meeting. As of September 30, 2019, the balance set aside for emergency reserves for the General Fund is \$11,687,013.29, Gasoline Tax Fund is \$4,255,137.09 and Solid Waste Fund is \$1,682,603.18 which is not classified as committed on the financial statements because this agreement does not meet the criteria to be reported as such.

Note 3 – Deposits and Investments

Deposits

The custodial credit risk for deposits is the risk that, in the event of a bank failure, the Commission will not be able to cover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Commission's deposits at year-end were entirely covered by federal depository insurance or by the Security for Alabama Funds Enhancement Program (SAFE Program). The SAFE Program was established by the Alabama Legislature and is governed by the provisions contained in the *Code of Alabama 1975*, Sections 41-14A-1 through 41-14A-14. Under the SAFE Program all public funds are protected through a collateral pool administered by the Alabama State Treasurer's Office. Under this program, financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that financial institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation (FDIC). If the securities pledged fail to produce adequate funds, every institution participating in the pool would share the liability for the remaining balance. All of the Commission's investments were in certificates of deposits or money market funds.

Cash with Fiscal Agent

The Baldwin County Commission follows the requirements set out in Alabama State Law. These investment regulations are contained in the *Code of Alabama 1975*, Sections 19-3-120 and 19-3-120.1.

Notes to the Financial Statements
For the Year Ended September 30, 2019

As of September 30, 2019, the Commission’s cash with fiscal agent was invested as follows:

| Investment Type | Maturities | Amortized Cost | Rating |
|---|--------------------------------------|-----------------------|----------------------------|

Policy Statement

This policy is adopted by the County Commission to direct the financial affairs of the Baldwin County Commission. This policy applies to all funds or financial resources which are vested under the responsibility of the Baldwin County Commission Only. These policies do not govern funds that are managed under separate County entities and those not under the privity of the Baldwin County Commission.

Investment Policies

It is the policy of the Baldwin County Commission to invest public funds in a manner which will obtain a maximum rate of return while meeting the cash-flow demands of expenditures approved through the budgetary process. Also, this policy is intended to ensure adherence to all State and local statutes governing the investment of funds. This policy sets forth the investment program for the Baldwin County Commission and the guidelines to be followed in achieving its objective.

Designation of Investment Management

The authority to manage the investment program is derived from State statute, local law and these investment policies. Management responsibility for the investment program is hereby delegated to the County Clerk/Treasurer.

Notes to the Financial Statements

For the Year Ended September 30, 2019

Ethics and Conflict of Interest

The County Clerk/Treasurer and other County employees that may be involved in the investment function shall refrain from personal activity that could conflict with the proper management of the investment program, or that could impair their ability to make impartial investment decisions. The County Clerk/Treasurer or other County employees involved in the investment program shall disclose to the County Commission any material financial interest in financial institutions that conduct business with the County and shall further disclose any large personal investment positions that could be related to the performance of Baldwin County. The County Clerk/Treasurer and any other employee of the county that is involved in the decision process of the investment program shall comply with the *Code of Alabama 1975*, Title 36, Chapter 25. All individuals involved in the decision-making process shall file Statement of Economic Interest with The Alabama Ethics Commission.

Objectives

The objectives of the Baldwin County Commission's investment policy are as follows: protection of the principal, proper cash flow, and optimal rate of return on investment vehicles.

The County's Investment Portfolio shall be maintained, keeping all three of these objectives in mind. All investment purchase decisions shall take into considerations these three objectives in each and every decision.

1. The Protection of Principal shall be the top objective in the County's investment program. Protection of principal shall be controlled by investing in those investments that are only authorized by State and local law, which constitute some of the safest type of securities available in the marketplace. Most importantly, market risk on principal due to maturity dates and interest rates must be the primary focus in determining the investment portfolio diversification.
2. Proper Cash Flow shall be based upon the cash needs as projected through cash management analysis and monitoring. An investment may be liquidated prior to maturity to meet unanticipated cash needs and to re-deploy resources into other investment vehicles expected to outperform the current holdings.
3. Optimal Returns on investments is the third objective once principal safeguards and projected cash needs are established. The investment portfolio shall contain those investments only authorized by State and local law. Such authorized investments shall be purchased with the highest yield available within the constraints outlined in Objective 1 and 2 outlined above.

Notes to the Financial Statements

For the Year Ended September 30, 2019

Investment Strategies

The Baldwin County Commission generally invests funds with the intent to hold to maturity. Investment portfolios shall consist of investments that are based on State and local law and are consistent with the objectives outlined above. Funds designated for immediate expenditure shall be passively invested to allow for liquidity in order to pay for upcoming obligations. Funds that are available for obligations that are not immediate should be invested on a structured laddered basis dependent on market conditions. The County's investment program shall utilize investment strategies based upon the unique characteristics of certain fund types and individual funds (i.e. operational, special, capital, debt).

Due Professional Care

Investments shall be made with professional judgment and due care that would be exhibited by a person of prudence, discretion and intelligence under the same prevailing circumstances. Investment portfolios should be based upon income production and not speculation.

Authorized Investments

The Baldwin County Commission's authority to invest County funds is granted under the *Code of Alabama 1975*, Title 11, Chapter 81, Section 19 and Title 11, Chapter 81, Section 21.

Maximum Maturities

No investment shall be purchased with maturity greater than three (3) years without direct prior approval of the Baldwin County Commission.

Procedural Requirement

The County Clerk/Treasurer is responsible for overseeing the daily operations in relation to the management of the County's investment portfolio. The County Clerk/Treasurer may assign staff members to assist in managing the overall program. After the passage of each annual fiscal year budget, the County Clerk/Treasurer will establish an overall annual investment strategy based upon the County's current financial position and the established fiscal plan for the upcoming year. The County Clerk/Treasurer, on a monthly basis, will review the status of the investment program and its portfolio and determine whether changes are required in its overall annual plan due unanticipated changes in immediate or near future cash needs.

Notes to the Financial Statements

For the Year Ended September 30, 2019

Interest Rate Risk

Interest rate risk occurs when market interest rate changes adversely affect the fair market value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair market value to changes in market interest rates. The Baldwin County Commission addresses this above.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The credit rating, if applicable and available, is presented in the table of investments.

Concentration of Credit Risk

The Baldwin County Commission has no policy in place and places no limit on the amount the Commission may invest in any one issuer. The table below reflects all of the investment instruments. A summary of investment category is as follows:

| | | |
|------------------------------|-----------------------|---------|
| Investments in Money Markets | <u>\$4,662,280.53</u> | 100.00% |
|------------------------------|-----------------------|---------|

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Baldwin County Commission has no policy that limits the amount of securities that can be held by counterparties.

Note 6 – Defined Benefit Pension Plan

A. General Information about the Pension Plan

Plan Description

The Employees’ Retirement System of Alabama (ERS), an agency multiple-employer plan (the “Plan”), was established October 1, 1945 under the provisions of Act Number 515, Acts of Alabama 1945, for the purpose of providing retirement allowances and other specified benefits for state employees, State Police, and on an elective basis, to all cities, counties, towns and quasi-public organizations. The responsibility for the general administration and operation of ERS is vested in its Board of Control. The ERS Board of Control consists of 13 trustees. The Plan is administered by the Retirement Systems of Alabama (RSA). The *Code of Alabama 1975*, Section 36-27-2, grants the authority to establish and amend the benefit terms to the ERS Board of Control. The Plan issues a publicly available financial report that can be obtained at www.rsa-al.gov.

Notes to the Financial Statements

For the Year Ended September 30, 2019

The ERS Board of Control consists of 13 trustees as follows:

- 1) The Governor, ex officio.
- 2) The State Treasurer, ex officio.
- 3) The State Personnel Director, ex officio.
- 4) The State Director of Finance, ex officio.
- 5) Three vested members of ERS appointed by the Governor for a term of four years, no two of whom are from the same department of state government nor from any department of which an ex officio trustee is the head.
- 6) Six members of ERS who are elected by members from the same category of ERS for a term of four years as follows:
 - a. Two retired members with one from the ranks of retired state employees and one from the ranks of retired employees of a city, county, or a public agency each of whom is an active beneficiary of ERS.
 - b. Two vested active state employees.
 - c. Two vested active employees of an employer participating in ERS pursuant to the *Code of Alabama 1975*, Section 36-27-6.

Benefits Provided

State law establishes retirement benefits as well as death and disability benefits and any ad hoc increase in postretirement benefits for the ERS. Benefits for ERS members vest after 10 years of creditable service. State employees who retire after age 60 (52 for State Police) with 10 years or more of creditable service or with 25 years of service (regardless of age) are entitled to an annual retirement benefit, payable monthly for life. Local employees who retire after age 60 with 10 years or more of creditable service or with 25 or 30 years of service (regardless of age), depending on the particular entity's election, are entitled to an annual retirement benefit, payable monthly for life. Service and disability retirement benefits are based on a guaranteed minimum or a formula method, with the member receiving payment under the method that yields the highest monthly benefit. Under the formula method, members of the ERS (except State Police) are allowed 2.0125% of their average final compensation (highest 3 of the last 10 years) for each year of service. State Police are allowed 2.875% for each year of State Police service in computing the formula method.

Act Number 2012-377, Acts of Alabama, established a new tier of benefits (Tier 2) for members hired on or after January 1, 2013. Tier 2 ERS members are eligible for retirement after age 62 (56 for State Police) with 10 years or more of creditable service and are entitled to an annual retirement benefit, payable monthly for life. Service and disability retirement benefits are based on a guaranteed minimum or a formula method, with the member receiving payment under the method that yields the highest monthly benefit. Under the formula method, Tier 2 members of the ERS (except State Police) are allowed 1.65% of their average final compensation (highest 5 of the last 10 years) for each year of service. State Police are allowed 2.375% for each year of state police service in computing the formula method.

Notes to the Financial Statements

For the Year Ended September 30, 2019

Members are eligible for disability retirement if they have 10 years of creditable service, are currently in-service, and determined by the RSA Medical Board to be permanently incapacitated from further performance of duty. Preretirement death benefits are calculated and paid to the beneficiary on the member's age, service credit, employment status and eligibility for retirement.

The ERS serves approximately 909 local participating employers. The ERS membership includes approximately 90,999 participants. As of September 30, 2018, membership consisted of:

| | |
|---|---------------|
| Retirees and beneficiaries currently receiving benefits | 24,818 |
| Terminated employees entitled to but not yet receiving benefits | 1,426 |
| Terminated employees not entitled to a benefit | 7,854 |
| Active Members | 56,760 |
| Post-DROP participants who are still in active service | 141 |
| Total | <u>90,999</u> |

Contributions

Covered members of the ERS contributed 5% of earnable compensation to the ERS as required by statute until September 30, 2011. From October 1, 2011 to September 30, 2012, covered members of the ERS were required by statute to contribute 7.25% of earnable compensation. Effective October 1, 2012, covered members of the ERS are required by statute to contribute 7.50% of earnable compensation. Certified law enforcement, correctional officers, and firefighters of the ERS contributed 6% of earnable compensation as required by statute until September 30, 2011. From October 1, 2011 to September 30, 2012, certified law enforcement, correctional officers, and firefighters of the ERS were required by statute to contribute 8.25% of earnable compensation. Effective October 1, 2012, certified law enforcement, correctional officers, and firefighters of the ERS are required by statute to contribute 8.50% of earnable compensation. State Police of the ERS contribute 10% of earnable compensation. ERS local participating employers are not required by statute to increase contribution rates for their members. However, the Commission did elect to increase contribution rates for their members.

Tier 2 covered members of the ERS contribute 6% of earnable compensation to the ERS as required by statute. Tier 2 certified law enforcement, correctional officers, and firefighters of the ERS are required by statute to contribute 7% of earnable compensation. Tier 2 State Police members of the ERS contribute 10% of earnable compensation. These contributions rates are the same for Tier 2 covered members of ERS local participating employers.

Notes to the Financial Statements

For the Year Ended September 30, 2019

The ERS establishes rates based upon an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with additional amounts to finance any unfunded accrued liability, the pre-retirement death benefit and administrative expenses of the Plan. For the year ended September 30, 2019, the Baldwin County Commission's active employee contribution rate was 7.05% of covered employee payroll, and the Commission's average contribution rate to fund the normal and accrued liability costs was 5.12% of pensionable payroll. For the year ended September 30, 2018, the Baldwin County Sheriff's Office active employee contribution rate was 7.58% of covered employee payroll, and the Baldwin County Sheriff's Office average contribution rate to fund the normal and accrued liability costs was 6.57% of pensionable payroll.

The Baldwin County Commission's contractually required contribution rate for the year ended September 30, 2019, was 5.62% of pensionable pay for Tier 1 employees, and 5.20% of pensionable pay for Tier 2 employees. These required contribution rates are based upon the actuarial valuation dated September 30, 2016, a percent of annual pensionable payroll, and actuarially determined as an amount that, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, with an additional amount to finance any unfunded accrued liability. Total employer contributions to the pension plan from the Commission were \$1,341,573.67 for the year ended September 30, 2019.

The Baldwin County Sheriff's Office contractually required contribution rate for the year ended September 30, 2019 was 6.96% of pensionable pay for Tier 1 employees, and 5.81% of pensionable pay for Tier 2 employees. These required contribution rates are based upon the actuarial valuation dated September 30, 2016, a percent of annual pensionable payroll, and actuarially determined as an amount that, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, with an additional amount to finance any unfunded accrued liability. Total employer contributions to the pension plan from the Commission (Sheriff's Office) were \$1,055,310.93 for the year ended September 30, 2019.

Notes to the Financial Statements
For the Year Ended September 30, 2019

B. Net Pension Liability

The Baldwin County Commission's net pension liability was measured as of September 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as September 30, 2017 rolled forward to September 30, 2018 using standard roll-forward techniques as shown in the following table:

| | | Baldwin County Commission | | |
|-----|---|--------------------------------------|-----------------------|---------------------|
| | | Total Pension Liability Roll-Forward | | Roll-Forward |
| | | Expected | Actual | Actual |
| (a) | Total Pension Liability as of September 30, 2017 | \$82,673,080 | \$79,080,312 | \$79,500,480 |

Actuarial Assumptions

The total pension liability as of September 30, 2018, was determined based on the annual actuarial funding valuation report prepared as of September 30, 2017. The key actuarial assumptions are summarized below:

| | |
|--|---------------|
| Inflation | 2.75% |
| Salary Increases | 3.25% - 5.00% |
| Investment Rate of Return (*) | 7.70% |
| (*) Net of pension plan investment expense | |

Mortality rates for ERS were based on the sex distinct RP-2000 Blue Collar Mortality Table Projected with Scale BB to 2020 with an adjustment of 125% at all ages for males and 120% for females ages 78 and older. The rates of mortality for the period after disability retirement are according to the sex distinct RP-2000 Disability Retiree Mortality Table Projected with Scale BB to 2020 with an adjustment of 130% at all ages for females.

The actuarial assumptions used in the actuarial valuation as of September 30, 2017 were based on the results of an investigation of the economic and experience for the ERS based upon participant data as of September 30, 2015. The Board of Control accepted and approved these changes in September 2016, which became effective at the beginning of fiscal year 2016.

Notes to the Financial Statements
For the Year Ended September 30, 2019

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of geometric real rates of return for each major asset class are as follows:

| | Target Allocation | Long-Term Expected Rate of Return (*) |
|---------------------------------------|----------------------|---|
| Fixed Income | 17.00% | 4.40% |
| U. S. Large Stocks | 32.00% | 8.00% |
| U. S. Mid Stocks | 9.00% | 10.00% |
| U. S. Small Stocks | 4.00% | 11.00% |
| International Developed Market Stocks | 12.00% | 9.50% |
| International Emerging Market Stocks | 3.00% | 11.00% |
| Alternatives | 10.00% | 10.10% |
| Real Estate | 10.00% | 7.50% |
| Cash Equivalents | 3.00% | 1.50% |
| Total | 100.00% | |

(*) Includes assumed rate of inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability was the long-term rate of return, 7.70%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the employer contributions will be made in accordance with the funding policy adopted by the ERS Board of Control. Based on those assumptions, components of the pension plan's fiduciary net position were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued RSA Comprehensive Annual Report for the fiscal year ended September 30, 2018. The supporting actuarial information is included in the GASB Statement Number 68 Report for the ERS prepared as of September 30, 2018. The auditor's report dated September 17, 2019, on the Schedule of Changes in Fiduciary Net Position by Employer and accompanying notes is also available. The additional financial and actuarial information is available at www.rsa-al.gov.

The ERS financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. Contributions are recognized as revenues when earned, pursuant to the Plan requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Expenses are recognized when the corresponding liability is incurred, regardless of when the payment is made. Investments are reported at fair value. Financial statements are prepared in accordance with requirements of the Governmental Accounting Standards Board (GASB). Under these requirements, the Plan is considered a component unit of the State of Alabama and is included in the State's Comprehensive Annual Financial Report.

D. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2019, the Baldwin County Commission and the Baldwin County Sheriff's Office recognized pension expense of \$661,602 and \$669,106 respectively. At September 30, 2019, the Baldwin County Commission and the Baldwin County Sheriff's Office reported deferred outflows of resources and deferred inflows of resources related to pensions of the following sources:

General Information about the Pension Plan

Plan Description

The Judicial Retirement Fund of Alabama, a cost-sharing multiple-employer public employee retirement plan, was established as of September 18, 1973, under the provisions of Act Number 1163, Acts of Alabama 1973, for the purpose of providing retirement allowances and other specified benefits for any Justice of the Supreme Court of Alabama, Judge of the Court of Civil Appeals, Judge of the Court of Criminal Appeals, Judge of the Circuit Court, or office holder of any newly created judicial office receiving compensation from the State Treasury. Act Number 1205, Acts of Alabama 1975, supplemented the provisions of Act Number 1163, Acts of Alabama 1973, and enlarged the scope and coverage of the JRF to include District and Probate Judges. The responsibility for the general administration and operation of the JRF is vested in the Board of Control of the Employees' Retirement System of Alabama (ERS). The JRF issues a publicly available financial report that can be obtained at www.rsa-al.gov.

Benefits Provided

The JRF benefits vest from five to eighteen years. Except for justices or judges who were either disabled, elected prior to July 30, 1979, or have at least 25 years of creditable service, no justice or judge is eligible to receive judicial service retirement pay prior to attaining age 60. Service retirement benefits for justices and judges are dependent upon the particular office held in the judicial branch of government. A retirement benefit is payable upon the request of any member who has: (1) 25 years of creditable service (regardless of age), (2) completed 12 years of creditable service and has attained age 65, (3) completed 15 years of creditable service and whose age plus service equals or exceeds 77, (4) completed 10 years of creditable service and has attained age 70 or (5) been elected prior to July 30, 1979, and has 18 years of service (regardless of age). A member eligible to retire who has not requested his or her retirement benefit to commence at the end of the term in which the member's 70th birthday occurs is entitled only to the refund of his or her contributions (except for members with at least 25 years of creditable service). The service retirement benefit for circuit, appellate, and probate judges is 75% of the member's salary at the time of separation from service. The service retirement benefit for a district judge is 75% of the position's salary immediately prior to retirement.

Notes to the Financial Statements
For the Year Ended September 30, 2019

Act 498 of the Legislature of 2015 established a new group (Group 3) of members within JRF which consists of all justices, judges, circuit clerks, and district attorneys elected or appointed on or after November 8, 2016. Group 3 members are eligible for retirement after age 62 with 10 years or more of creditable service and are entitled to an annual retirement benefit, payable monthly for life. A district attorney who has Tier 1 ERS transferred service as an assistant or deputy district attorney is eligible for service retirement with 25 years of service credit, regardless of age. Service and disability retirement benefits are calculated using a retirement formula. Group 3 members who are judges or justices are allowed 4% of their average final compensation (highest 5 of the last 10 years) for each year of service up to 75% of their average final compensation. Group 3 members who are clerks or district attorneys are allowed 3% of their average final compensation (highest 5 of the last 10 years) for each year of service up to 80% of their average final compensation.

Contributions

JRF members contributed 6% of earnable compensation as required by statute until September 30, 2011. From October 1, 2011 to September 30, 2012, members were required by statute to contribute 8.25% of earnable compensation. Effective October 1, 2012, members are required by statute to contribute 8.50% of earnable compensation.

Pension Liabilities and Pension Expense

At September 30, 2019, the Baldwin County Commission did not have a liability for a proportionate share of the net pension liability because of the related State of Alabama support. The amount of the State of Alabama's proportionate share of net pension liability associated with the Baldwin County Commission is as follows:

| | |
|---|-----------|
| State of Alabama's proportionate share of the net pension liability associated with the Baldwin County Commission | \$427,905 |
|---|-----------|

The net pension liability was measured as of September 30, 2018. The total pension liability is based on the actuarial valuation as of September 30, 2017. An expected total pension liability as of September 30, 2018 was determined using standard roll-forward techniques. The State of Alabama's proportion of the net pension liability associated with the Baldwin County Commission was based on actuarially determined contributions paid by the State of Alabama during the fiscal year ended September 30, 2018.

For the year ended September 30, 2019, the Baldwin County Commission recognized pension expense and revenue of \$46,499 for aid provided by the State of Alabama.

Notes to the Financial Statements

For the Year Ended September 30, 2019

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of September 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement:

| | |
|--|-------------|
| Inflation | 2.75% |
| Salary Increases | 3.25%-3.50% |
| Investment Rate of Return (*) | 7.65% |
| (*) Net of pension plan investment expense | |

The actuarial assumptions used in the actuarial valuation as of September 30, 2017, were based on the results of an investigation of the economic and demographic experience for the JRF based upon participation data as of September 30, 2015. The Board of Control accepted and approved these changes in September 2016, which became effective at the beginning of fiscal year 2016.

Mortality rates for the Plan were based on the White Collar Mortality Table projected to 2020 using Scale BB and adjusted 115% for males and 112% for females age 78 and older.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of geometric real rates of return for each major asset class are as follows:

| | Target Allocation | Long-Term Expected Rate of Return (*) |
|--|----------------------|---|
| Fixed Income | 22.00% | 4.40% |
| U. S. Large Stocks | 41.00% | 8.00% |
| U. S. Mid Stocks | 11.00% | 10.00% |
| U. S. Small Stocks | 3.00% | 11.00% |
| International Developed Market Stocks | 12.00% | 9.50% |
| International Emerging Market Stocks | 3.00% | 11.00% |
| Alternatives | 1.00% | 10.10% |
| Real Estate | 2.00% | 7.50% |
| Cash Equivalents | 5.00% | 1.50% |
| Total | 100.00% | |
| (*) Includes assumed rate of inflation of 2.50%. | | |

Notes to the Financial Statements

For the Year Ended September 30, 2019

Discount Rate

The discount rate used to measure the total pension liability was 7.65%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, components of the pension plan's fiduciary net position were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued RSA Comprehensive Annual Financial Report for the fiscal year ended September 30, 2018. The supporting actuarial information is included in the GASB Statement Number 67 for the JRF prepared as of September 30, 2018. The auditor's report dated September 17, 2019, on the total pension liability, total deferred outflows of resources, total deferred inflows of resources, total pension expense for the sum of all participating entities as of September 30, 2018, along with supporting schedules is also available. The additional financial and actuarial information is available at <http://www.rsa-al.gov/index.php/employers/financial-reports/gasb-68-reports/>.

Note 7 – Other Postemployment Benefits (OPEB)

General Information about the OPEB Plan

Plan Description

The Commission provides certain continuing health care and life insurance benefits for its retired employees. The Commission's OPEB Plan (the "OPEB Plan") is a single-employer defined benefit OPEB plan administered by the Commission. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the Commission. No assets are accumulated in a trust that meets the criteria in Governmental Accounting Standards Board (GASB) Codification Section P52 *Postemployment Benefits Other Than Pensions - Reporting For Benefits Not Provided Through Trusts That Meet Specified Criteria - Defined Benefit*.

Notes to the Financial Statements

For the Year Ended September 30, 2019

Benefits Provided

Medical benefits are provided through a comprehensive medical plan and are made available to employees upon actual retirement. The employees are covered by the Retirement System of Alabama and must meet the eligibility provisions adopted by resolution to receive retiree medical benefits. The earliest retirement eligibility provisions are as follows: 25 years of service at any age; or, age 60 and 10 years of service (called “Tier I” members). Employees hired on and after January 1, 2013 (called “Tier II” members) are eligible to retire only after attainment of age 62 or later completion of 10 years of service.

Employees Covered by Benefit Terms

At September 30, 2018, the following employees were covered by the benefit terms:

| | |
|---|-----|
| Inactive employees or beneficiaries currently receiving benefit payments | 54 |
| Active Employees | 741 |
| Total | 795 |

Total OPEB Liability

The Commission’s total OPEB liability of \$6,602,523 was measured as of September 30, 2019 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the September 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| | |
|-----------------------------|---|
| Inflation | 2.5% annually |
| Salary Increases | 4.0% annually |
| Discount Rate | 4.18% annually (Beginning of Year to Determine ADC) 2.66%, annually (As of End of Year Measurement Date) |
| Healthcare Cost Trend Rates | Flat 5.5% annually |

The discount rate was based on the average of the Bond Buyers’ 20 Year General Obligation municipal bond index as of September 30, 2019, the end of the applicable measurement period.

Notes to the Financial Statements
For the Year Ended September 30, 2019

Mortality rates were based on the RP-2000 Table without projection with 50%/50% unisex blend.

The actuarial assumptions used in the September 30, 2019 valuation were based on the results of ongoing evaluations of the assumptions from October 1, 2009 to September 30, 2019.

Note 9 – Lease Obligations

Capital Leases

The Commission is obligated under certain leases accounted for as capital leases. Assets under capital lease totaled \$439,000.00 for governmental activities at September 30, 2019. If the Commission completes the lease payments according to the schedules below, which is the stated intent of the Commission, ownership of the leased equipment will pass to the Commission. The lease-purchase contracts give the Commission the right to cancel the lease with 30 days written notice and payment of a pro rata share of the current year’s lease payments. Until that time, the leased equipment will be included in the net depreciable noncurrent assets on the Statement of Net Position. The following is a schedule of future minimum lease payments under capital leases, together with the net present value of the minimum lease payments as of September 30.

| Fiscal Year Ending | Governmental Activities |

Note 10 – Long-Term Debt

In January 2010, General Obligation Warrants with interest rates of 1 to 5 percent were issued for the purpose of the Series 2010 current refunding of the General Obligation Warrants, Series 1999, dated March 1, 1999 and the advanced refunding and redemption of the General Obligation Warrants, Series 2002 and Series 2003, dated March 1, 2002 and December 1, 2003 respectively.

In September 2012, General Obligation Warrants with interest rates of 2 to 5 percent were issued for the purpose of the Series 2012 advance refunding of the General Obligation Warrants, Series 2004 issued in June 2004. The debt service payments are made by the Gasoline Tax Fund.

In February 2013, General Obligation Warrants with interest rates of 2 to 5 percent were issued for the purpose of the Series 2013 advance refunding of the General Obligation Warrants, Series 2006A issued in January 2006. The debt service payments are made by the General Fund, Gasoline Tax Fund and Wilderness Fund.

In June 2014, General Obligation Warrants with interest rates of 2.10 to 4.25 percent were issued for the purpose of the Series 2014 current refunding of the General Obligation Warrant, Series 2012-B, dated June 7, 2012.

In March 2015, General Obligation Warrants with interest rates of 2.00 to 5.00 percent were issued for the purpose of the Series 2015 advance refunding of the General Obligation Warrant, Series 2008C issued in September 2008 and the partial advance refunding of the General Obligation Warrants, Series 2007A issued in March 2007 and Series 2008B issued in May 2008. The debt service payments are made by the General Fund and Gasoline Tax Fund. In April 2018, the Commission set up a trust for \$1,000,000.00 for the future payment to warrant holders of the General Obligation Warrants, Series 2015 using current resources.

In May 2016, General Obligation Warrants with an interest rate of 1.72 percent were issued for the purpose of the Series 2016 construction of a RV Park at the county owned Live Oak Landing. The debt service payments are made by the Parks Fund with the support of transfers from the General Fund.

Prepaid Insurance Costs, Premiums and Discounts

The Commission has prepaid insurance costs and premiums/discounts in connection with the issuance of its 2007-A, 2008-B, 2012, 2013, 2014 and 2015 General Obligation Warrants. The deferred amounts are being amortized using the straight-line method over a period of 25, 25, 15, 13, 25 and 18 years respectively. For the 2010 General Obligation Warrants the premium is being amortized over 16 years.

Prior Year Defeasance of Debt

In prior years the Commission defeased certain general obligation warrants by placing the proceeds of the new warrants in an irrevocable trust to provide for all future debt service payments of the old warrants. Accordingly, the trust account assets and the liability for the defeased debt are not included on the Commission's financial statements. At September 30, 2019, the total of \$3,500,000.00 of general obligation warrants outstanding are considered defeased.

Notes to the Financial Statements

For the Year Ended September 30, 2019

Note 11 – Landfill Closure and Postclosure Care Costs

State and federal laws and regulations require that the Commission place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site for thirty years after closure. In addition, to operating expenses related to current activities of the landfill, an expense provision and related liability are being recognized based on the future closure and postclosure care costs that will be incurred near or after the date the landfill no longer accepts waste. The recognition of these landfill closure and postclosure care costs is based on the amount the landfill is used during the year. The estimated liability for closure and postclosure care costs has a balance of \$4,297,138.72 as of September 30, 2019, which is based on 33 percent usage (filled) of the landfill. It is estimated that an additional \$8,698,279 will be recognized as closure and postclosure care expenses between the date of the balance sheet and the date the landfill is expected to be filled to capacity. The estimated total current cost of the landfill closure and postclosure care (\$12,995,418) is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfill were acquired as of September 30, 2019. However, the actual cost of closure and postclosure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations.

The Commission is required by state and federal laws and regulations to make annual contributions to finance closure and post-closure care. The Commission is in compliance with these requirements, and at September 30, 2019, funds of \$5,388,089.47 are held for these purposes. These funds are deposits on hand and are presented on the Commission's balance sheet as "Cash." It is anticipated that future inflation costs will be financed in part from earnings on these funds. The remaining portion of anticipated future inflation costs (including inadequate earnings on investments, if any) and additional costs that might arise from changes in postclosure requirements (due to changes in technology or more rigorous environmental regulations, for example) may need to be covered by charges to future landfill users, taxpayers, or both.

Note 12 – Conduit Debt Obligations

On June 1, 2007, the Public Building Authority of Baldwin County (PBA), which is a related organization of Baldwin County, issued \$6,405,000 of Building Revenue Warrants (DHR Project), Series 2007-A for the purpose of financing the acquisition, construction and installation of an office building for use by the Baldwin County Department of Human Resources. Simultaneously, with the issuance of the warrants, a lease agreement was executed between the PBA and Baldwin County in addition to a sub-lease agreement between Baldwin County and the State of Alabama, acting by and through its Department of Human Resources. The sub-lease agreement was amended on August 1, 2007. The lease is limited obligation debt of the Commission and is payable solely from the revenues generated through the sub-lease agreement, as amended. The warrants nor the lease do not constitute a debt or pledge of the faith and credit of the Commission and accordingly have not been reported in the accompanying financial statements. As of September 30, 2019, the outstanding balance of the lease is \$3,550,000.00.

Note 13 – Risk Management

General Liability and Workers Compensation

The Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Commission has general liability insurance through the Association of County Commissions of Alabama (ACCA) Liability Self Insurance Fund, a public entity risk pool. The Fund is self-sustaining through member contributions. The Commission pays an annual premium based on the Commission's individual claims experience and the experience of the Fund as a whole. Coverage is provided up to \$1,000,000 per claim for a maximum total coverage of \$3,000,000 in aggregate. Defense costs are included in the limits of the coverage. Employment practices liability coverage provides up to \$1,000,000 per occurrence with a \$5,000 deductible for loss only. Defense costs are included in the limits of the coverage. Equitable Defense coverage per occurrence is limited to \$225,000.00. The Commission has workers' compensation insurance through the Association of County Commissions of Alabama (ACCA) Workers' Compensation Self Insurance Fund, a public entity risk pool. Premiums are based on a rate per \$100 of remuneration for each class of employee which is adjusted by an experience modifier for the individual county less a 2.26% discount. At year-end, pool participants are eligible to receive refunds of unused premiums and the related investment earnings. The Commission may qualify for additional discounts based on losses and premium size.

Health Insurance

The Commission was self-insured for 12 months and paid their administrator for claims processing. For October 2018 through September 2019, the Commission pays BCBS administrative fee of \$65.47 for single coverage and \$73.34 for family coverage; the stop loss carrier \$37.16 for single coverage and \$108.34 for family coverage; and has set funding rates at \$548.00 for single coverage and \$1,363.00 for family coverage. The Carrier/Administrator was paid a total of \$8,370,646 for fiscal year 2019, \$6,917,307 in self-insured medical and Rx claims plus \$748,177 in self-insured stop loss premium plus \$705,162 in self-insured BCBS admin fees. The Commission purchases a stop loss insurance policy for claims in excess of \$100,000 per individual with \$100,000 aggregating specific deductible up to unlimited. The estimated liability for claims cost for medical and prescriptions as of September 30, 2019, was \$384,382.

Note 15 – Related Organizations

Several agencies are considered related organizations of the Baldwin County Commission. For each agency, a majority of the members are appointed by the Baldwin County Commission. The Commission, however, is not financially accountable because it does not impose its will and does not have a financial benefit or burden relationship; therefore, they are not considered part of the Commission's financial reporting entity. The following is a list of the related organizations:

Note 16 – Subsequent Events

On December 17, 2019, the Commission approved the issuance of warrants in the amount of \$11,570,000.00 to be used for the current refunding of the Series 2010 Warrants and capital projects.

Also, on December 17, 2019, the Commission approved the issuance of warrants in the amount of \$35,965,000.00 to be used for a jail expansion project.

Recently, the United States has encountered a COVID-19 pandemic which is adversely affecting the nation. On March 13, 2020, the President of the United States declared a state of emergency in response to the COVID-19 pandemic. Subsequently, on the same day, the Governor of Alabama declared a state of emergency. As a result, the operations of federal, state, and local governments including educational institutions have been modified to ensure the safety of its citizenry as well as its employees. It is highly anticipated that revenues from all sources, including taxes and federal grants that are received by the Commission will be severely impacted by this pandemic. Additionally, it is anticipated that there will be a significant increase in costs associated with the aftermath of COVID-19. Because so much is unknown at this time, it will be extremely difficult for the Commission to prepare budgets for the upcoming fiscal year to anticipate the impact of the pandemic. The Commission anticipates that its financial operations will be adversely impacted by this pandemic; however, the duration and severity of its effects is indeterminable at this time.

Member and Employer Contributions

JRF members contributed 6% of earnable compensation as required by statute until September 30, 2011. From October 1, 2011, to September 30, 2012, JRF members were required by statute to contribute 8.25% of earnable compensation. Effective October 1, 2012, JRF members are required by statute to contribute 8.50% of earnable compensation. Group 3 members of the JRF contribute 8.50% of earnable compensation to the JRF as required by statute.

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of September 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement:

| | |
|----------------------------|---------------|
| Price Inflation | 2.75% |
| Projected Salary Increases | 3.25% - 3.50% |
| Investment Rate of Return | 7.65% |

The actuarial assumptions used in the actuarial valuation as of September 30, 2017, were based on the results of an investigation of the economic and demographic experience for the JRF based upon participant data as of September 30, 2015 completed by the JRF and its actuaries. The purpose of the investigation was to assess the reasonableness of the actuarial assumptions and methods currently used by the JRF. This investigation resulted in changes to the actuarial assumptions. The Board of Control accepted and approved these changes in September 2016 which became effective at the beginning of fiscal year 2016.

This schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

***Notes to the Schedule of Expenditures
of Federal Awards
For the Year Ended September 30, 2019***

Note 1 – Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the “Schedule”) includes the federal grant activity of the Baldwin County Commission under programs of the federal government for the year ended September 30, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U. S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance)*. Because the Schedule presents only a selected portion of the operations of the Baldwin County Commission, it is not intended to and does not present the financial position or changes in net position of the Baldwin County Commission.

Note 2 – Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the *Uniform Guidance* wherein certain types of expenditures are not allowable or are limited as to reimbursement. The Baldwin County Commission has not elected to use the 10-percent de minimus indirect cost rate as allowed by the *Uniform Guidance*.

***Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance With
Government Auditing Standards***

Independent Auditor's Report

Members of the Baldwin County Commission and County Administrator
Bay Minette, Alabama

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in ***Government Auditing Standards***, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Baldwin County Commission, as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the Baldwin County Commission's basic financial statements and have issued our report thereon dated June 9, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Baldwin County Commission's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Baldwin County Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Baldwin County Commission's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

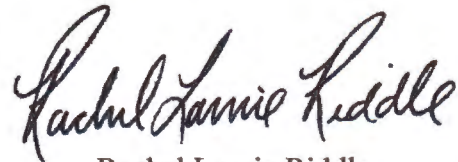

***Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance With
Government Auditing Standards***

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Baldwin County Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

***Report on Compliance for Each Major Federal Program
and Report on Internal Control Over Compliance
Required by the Uniform Guidance***

Independent Auditor's Report

Members of the Baldwin County Commission and County Administrator
Bay Minette, Alabama

Report on Compliance for the Major Federal Program

We have audited the Baldwin County Commission's compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on the Baldwin County Commission's major federal program for the year ended September 30, 2019. The Baldwin County Commission's major federal program is identified in the Summary of Examiner's Results Section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance with the Baldwin County Commission's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in ***Government Auditing Standards***, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U. S. ***Code of Federal Regulations*** Part 200, ***Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)***. Those standards and the *Uniform Guidance* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Baldwin County Commission's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the Baldwin County Commission's compliance.

***Report on Compliance for Each Major Federal Program
and Report on Internal Control Over Compliance
Required by the Uniform Guidance***

Opinion on the Major Federal Program

In our opinion, the Baldwin County Commission complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended September 30, 2019.

Report on Internal Control Over Compliance

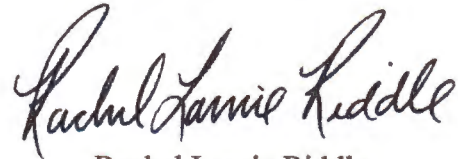

Management of the Baldwin County Commission is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Baldwin County Commission's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the *Uniform Guidance*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Baldwin County Commission's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

***Report on Compliance for Each Major Federal Program
and Report on Internal Control Over Compliance
Required by the Uniform Guidance***

The purpose of this report on internal control over compliance is solely to describe the scope of our testing on internal control over compliance and the results of that testing based on the requirements of the *Uniform Guidance*. Accordingly, this report is not suitable for any other purpose.
