Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

Baldwin County Regional Juvenile Detention Center had its PREA Audit conducted on June 12, 2019. The facility did well in preparing files for audit and assisting the Auditing Team in setting up interviews with staff, administration, and detainee(s) that were detained at the time of audit. The files had been thoroughly maintained and updated since the last audit period in 2016. Staff employed and youth housed at the time of audit were very knowledgeable of the standards and shared that knowledge as well as asked questions during the interview process. Much insight and acknowledgment were given during the interview process that provided an overall census that "sexual safety" was key and that Baldwin County Regional Juvenile Detention Center continues to maintain a "zero tolerance" for sexual misconduct.

Prior to the arrival at the facility the PREA Auditor and the facility's Director communicated occasionally. This preparation made the Audit process transition smoothly. Upon arrival at the facility, we conducted a walkthrough of the facility's layout, took several pictures, conducted interviews with a random selection of staff and detainees. The auditing team also spoke with the facility's Executive Director, PREA Coordinator, and Office Manager in an exit interview to address any concerns and questions.

The Baldwin County Juvenile Detention Center, Baldwin County Sheriff Department and the Baldwin County Child Advocacy Center work hand and hand in management of alleged incidents. Upon the review of documentation and through interviews, it was reiterated that PREA Audits are like none other. The Auditor must be satisfied that policy or procedure exist to satisfy the standard, that the practice in place is consistent with the standard and policy, and that the policy and practice has become institutionalized. The PREA Coordinator worked extremely hard with the Director to ensure consistency and compliance were both met and accommodated the Auditor where additional documentation was needed.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration

and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Baldwin County Regional Juvenile Detention Center's total bed capacity is 30. The age range is 13 to 19 years of age; the facility has admitted 452 residents in the facility in the last 12 months.

The Baldwin County Regional Juvenile Detention Center was created by an active Legislative in 1990, the construction of the building began in July of 1991 and was completed in April of 1992. The facility opened on June 15, 1992. The Baldwin County Regional Juvenile Detention Center is licensed by the Department of Youth Services on an annual basis. The mission of the facility is to provide temporary care of delinquent youth or youth who alleged to be delinquent in secure custody pending court dispositions or transfer to a residential facility for the further care of a child adjudicated to be delinquent. Included is the temporary care of juveniles or pending return to their home states pursuant to the Interstate Compact on Juveniles or pending their return to a residential facility from which they have absconded while in treatment under court order.

The facility strives to provide a humane setting to the fullest extent possible within the confines of a secure environment. To this end, the facility will provide a variety of services, educational, recreational, medical, food and religious. Those services which cannot be provided within the facility will be available from resources within the community and residents of the facility maybe transported to those services or arrangements will be made for service providers to come to the detention center.

The staff and administration of the facility are trained to be competent and caring individuals who are concerned about the well-being of residents at all times. A behavioral management program is used to provide motivation to improve their relationship with other residents and with staff. While the detention center is not a treatment facility it must not be a place for idleness, boredom, frustration and alienation. The detention center's care program promotes meaningful activities, opportunities for self-employment, personal reflections, and frequent interaction with caring professional staff members.

Summary of Audit Findings

*The summary should include the number of standards exceeded, number of standards met, and number of standards not met, **along with a list of each of the standards in each category.** If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.*

Auditor Note: No standard should be found to be "Not Applicable" or "NA". A compliance determination must be made for each standard.

There were no incidents of sexual abuse, assault or harassment reported during this audit period and there were no findings of inadequacy from the Department of youth services that would discredit the facility's zero tolerance policy. This was confirmed by the review of the narration of the Licensing agency report, and through Office Manager, PREA Coordinator, and the Executive Directive of the Facility. A total of 41 Standards were reviewed and a random selection of both staff and residents were interviewed, see the following for classification of staff;

- Office Manager
- Detention Officer (s)
- Investigator/Crisis Center by Phone
