Agency Comments

USACE, James Buckelew: Staff reached out but received no comments.

ADEM, Scott Brown: Staff reached out but received no comments.

Subdivisions, Fabia Waters: Following rezoning approval, the applicant must submit a sketch plan application for staff to review the proposed residential subdivision.

Staff Analysis and Findings

The criteria for reviewing zoning amendments are outlined in Section 19.6 of the Baldwin County Zoning Ordinance. Staff carefully considered all of these factors during the evaluation of the application.

(a) Degree of compatibility of the proposed rezoning with existing and allowable land uses in the vicinity.

The subject property encompasses approximately 113.35 acres, and a request has been made to change the designation to RSF-2 to subdivide. The adjoining properties are zoned RA and residential.

(b) Degree of conformity of the proposed rezoning to the Master Plan.

The Future Land Use Map (FLUM) represents a combination of development and environmental suitability factors, which direct growth and development patterns for the unincorporated areas of the County. The FLUM identifies the subject property as having part Rural/Agriculture/Low Impact Development and part Moderate Development Potential. These place types allow for rural zoning and RSF-1 and RSF-2.

(c) Proximity of the proposed rezoning to existing transportation network and utility infrastructure.

The subject property is located on a major collector road. A major collector road is to gather traffic from local residential streets or minor collectors and channel it safely and efficiently into the high-capacity arterial road network.

(d) Timing of the request and development trends in the area.

The subject property and surrounding area are low density residential development or rural. There is an adjacent subdivision to the west of the subject property that existed before Planning District 15 adopted a zoning map in 2006.

(e) Impacts on environmental conditions of the vicinity or the historic resources of the County.

No impacts on environmental conditions nor any historic resources of the County are proposed.

(f) Impacts to the health, safety and welfare of the County and the vicinity.

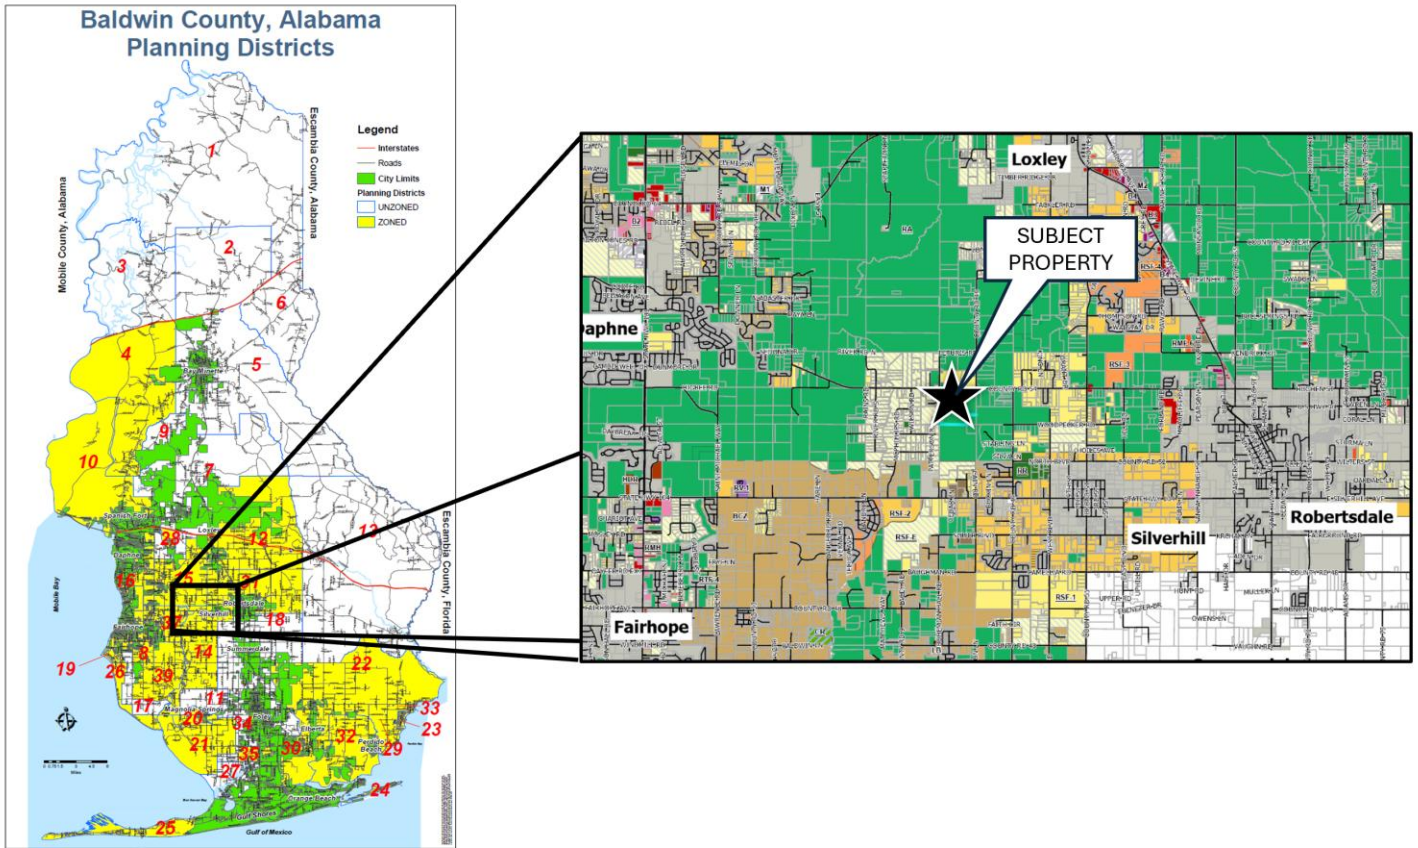

The proposed request should have no impact to the health, safety and welfare of the property or surrounding properties.

Staff Comments and Recommendation

Upon review of the *Factors for Reviewing Proposed Zoning Map Amendments* specified within Section 19.6 of the Baldwin County Zoning Ordinance and themes of the Baldwin County Master Plan, staff has determined that the requested Zoning Map Amendment is **somewhat consistent** with the factors specified within the Baldwin County Zoning Ordinance and is **partly consistent** with the Baldwin County Master Plan Future Land Use Map.

The requested Zoning Map Amendment was also evaluated using the Smart Growth Scorecard (attached) which **somewhat supports** the request.

RURAL/AGRICULTURE/LOW IMPACT DEVELOPMENT POTENTIAL AREAS

Rural Development Potential Areas include large lots, open space views, and a large buffer distance between buildings. Residential homes may be on large tracts and could include estate homes and working farmland. The development pattern may also include conservation-based subdivisions to allow for the clustering of residential dwellings to protect open space that is valued for natural resource protection—such as stream buffers, mature forest habitat, or wetlands—working farmland, or recreational amenities. Lands within these areas should be developed with additional Low Impact Development (LID) standards and buffers to limit the impact to adjacent critical environments. At key rural crossroads, rural centers or nodes could allow for a combination of retail and service uses to meet the needs of the community.

PRIMARY LAND USES

- Single-family detached homes
- Hobby farms
- Agri-hoods
- Cultivated farmland, timber/managed forest, pastureland
- Clustered manufactured housing communities
- Rural crossroads center/node

RELATED ZONING DISTRICTS

- RR Rural District
- RA Rural Agricultural District
- RSF-E Residential Single Family Estate

CONNECTIVITY NETWORK

- Rural streets with sidewalks, paved shoulders, bike lanes, and/or side paths based on local character and context.
- Rural greenways and trails along environmental buffers

MODERATE DEVELOPMENT POTENTIAL AREAS

Moderate Development Potential Areas are suitable for all of the land uses described in the previous place types but may also include a variety of home types from large and medium-lot single-family detached homes to single-family attached homes such as duplexes and townhomes. Subdivision patterns may be amenity-based communities with small gardens, parks and playgrounds within private lots or part of a community space. Neighborhood centers or nodes at key intersections would allow for a combination of retail, office, and service uses to meet the needs of the community.

PRIMARY LAND USES

- Single-family neighborhoods (suburban)
- Amenity-based communities
- Neighborhood center/node

RELATED ZONING DISTRICTS

- RSF-1 Single Family District
- RSF-2 Single Family District

CONNECTIVITY NETWORK

- Suburban street networks/limited use cul-de-sacs
- Open space, parks and amenities provided within neighborhoods
- Streets with sidewalks, bike lanes, and/or side paths based on local character and context
- Suburban greenways and trails

SMART GROWTH SCORECARD TOOL

Score each element based on the following: +2 (Strongly Supports), +1 (Somewhat Supports), -1 (Somewhat Does Not Support), and -2 (Strongly Does Not Support). Each category will be totaled and then combined for a final score to evaluate whether the development aligns with the vision and themes of the Master Plan. The following final score ranges will be used in this evaluation.
