Staff Analysis and Findings

The criteria for reviewing zoning amendments are outlined in Section 19.6 of the Baldwin County Zoning Ordinance. Staff carefully considered all of these factors during the evaluation of the application.

a) Degree of compatibility of the proposed rezoning with existing and allowable land uses in the vicinity.

The subject property consists of approximately 111 acres encompassing three parcels and is currently zoned RA, Rural Agriculture District. The applicant has requested to rezone the property to RSF-1, Residential Single Family District, and RSF-E, Residential Single Family Estate District, to facilitate future residential development.

The introduction of single-family residential zoning would represent a transition from rural agricultural uses while maintaining a low-density residential character. The RSF-1 and RSF-E zoning districts are intended to accommodate detached single-family homes at a low density.

b) Degree of conformity of the proposed rezoning to the Master Plan.

The Future Land Use Map (FLUM) reflects a combination of development potential and environmental suitability factors that guide growth and development patterns within the County's unincorporated areas. The Future Land Use Map (FLUM) designates this area as having the majority of Moderate Development Potential, which corresponds with RSF-1 zoning.

c) Proximity of the proposed rezoning to existing transportation network and utility infrastructure.

The subject property is located on the north side of County Road 64 which is a major collector and the east side of County Road 71N, which is a local road.

d) Timing of the request and development trends in the area.

The subject property is located within Planning District 12, which adopted a zoning map in November 2006. Since that time, there have been few changes in local conditions, with only select land use modifications in the surrounding area, including a few rezonings from agricultural to commercial along the Baldwin Beach Express. The area between State Highway 59 and the Baldwin Beach Express within Planning District 12 has experienced minimal or no development since the zoning map's adoption in 2006. The predominant development pattern in this vicinity is primarily agricultural and rural, complemented by estate-sized residential parcels. The nearest subdivision with established

infrastructure is approximately one mile north of the subject property and is zoned RSF-3. This subdivision, Blackwater Lakes, was established prior to the designation of Planning District 12.

This property was requested to be rezoned to RSF-2 by a previous owner in June 2025. The case was withdrawn.

e) Impacts on environmental conditions of the vicinity or the historic resources of the County.

No impact on historic resources are proposed.

f) Impacts to the health, safety and welfare of the County and the vicinity.

The proposed request should have no impact on the health, safety and welfare of the property or surrounding properties.

Staff Comments and Recommendation

Upon review of the Factors for Reviewing Proposed Zoning Map Amendments specified within Section 19.6 of the Baldwin County Zoning Ordinance staff has determined that the requested Zoning Map Amendment is somewhat consistent with the factors specified within the Baldwin County Zoning Ordinance but is **consistent** with the Baldwin County Master Plan Future Land Use Map.

The requested Zoning Map Amendment was also evaluated using the Smart Growth Scorecard (attached) which **somewhat supports** the request.

IDEAL CONSERVATION/ PRESERVATION AREAS

Ideal Conservation or Preservation Areas would include land that is undeveloped, or minimally developed, and protected by local, state, and federal agencies or by public, private, and nonprofit organizations. This could include areas conserved for the protection of critical habitat, clean water, open space, or cultural heritage.

PRIMARY LAND USES

- Natural areas that are publicly and privately owned and managed
- Permanently protected lands such as conservation easements, parks, cemeteries
- Parks and open spaces devoted primarily to passive recreation and trails
- Lands with important cultural landmarks or assets
- Scenic view corridors

RELATED ZONING DISTRICTS

- Environmental Conservation

CONNECTIVITY NETWORK

- Greenways and trails

MODERATE DEVELOPMENT POTENTIAL AREAS

Moderate Development Potential Areas are suitable for all of the land uses described in the previous place types but may also include a variety of home types from large and medium-lot single-family detached homes to single-family attached homes such as duplexes and townhomes. Subdivision patterns may be amenity-based communities with small gardens, parks and playgrounds within private lots or part of a community space. Neighborhood centers or nodes at key intersections would allow for a combination of retail, office, and service uses to meet the needs of the community.

PRIMARY LAND USES

- Single-family neighborhoods (suburban)
- Amenity-based communities
- Neighborhood center/node

RELATED ZONING DISTRICTS

- RSF-1 Single Family District
- RSF-2 Single Family District

CONNECTIVITY NETWORK

- Suburban street networks/limited use cul-de-sacs
- Open space, parks and amenities provided within neighborhoods
- Streets with sidewalks, bike lanes, and/or side paths based on local character and context
- Suburban greenways and trails

SMART GROWTH SCORECARD TOOL

Score each element based on the following: +2 (Strongly Supports), +1 (Somewhat Supports), -1 (Somewhat Does Not Support), and -2 (Strongly Does Not Support). Each category will be totaled and then combined for a final score to evaluate whether the development aligns with the vision and themes of the Master Plan. The following final score ranges will be used in this evaluation.
